

Networked Digital Signage

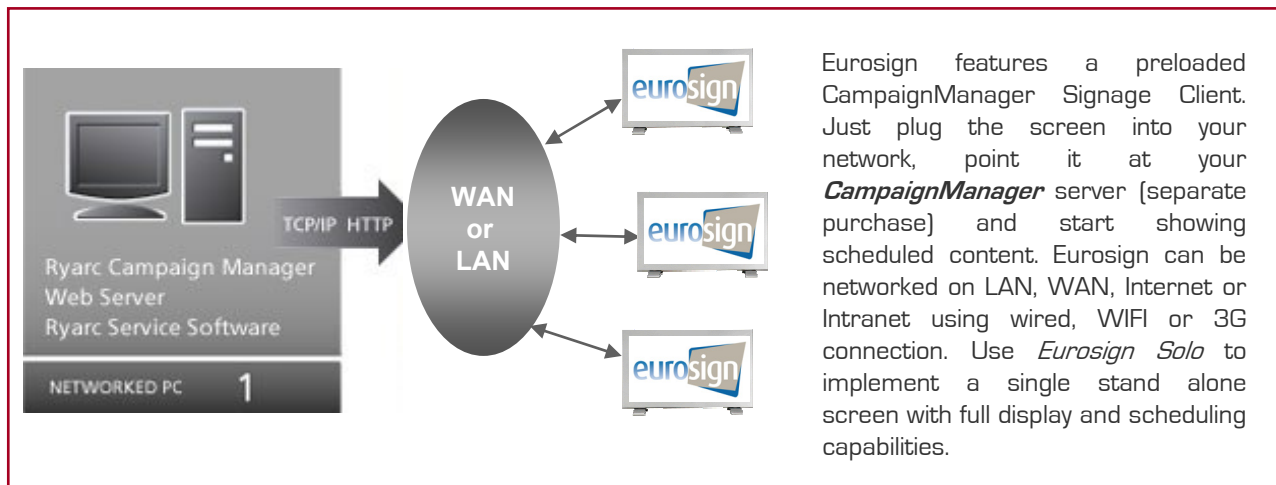

Eurosign Pro is a professional grade high impact, large digital sign that integrates screen, media player and powerful signage software in a single styled enclosure. Just plug in power and network of choice and you are ready to go. Eurosign Pro allows installers to deploy high grade digital signage at an economical site cost. Eurosign Pro is easily integrated into a powerful digital signage network.

Eurosign Pro, from Radiant Europe, sets new standards in performance, reliability and value. Screens are available from 32" to 52"

Radiant Europe's digital signage solution harnesses the power of **Ryarc's CampaignManager, networked digital** signage software. Each display has an embedded XP platform, sophisticated media player technology and readily connects to a choice of network architectures.

- High Contrast, HD Resolution, Wide Screen Display
- Toughened Safety Glass Panel
- Modular integrated display engine with XP Pro Embedded
- Powerful Media Player powered by CampaignManager
- Any content from pictures to HDTV
- Multiple Screen Zones, Tickers, RSS
- Powerful Signage Software – Network Ready
- Single enclosure supplied with wall mount kit
- Two Year Warranty – Option to extend to 5 years
- Quiet temperature controlled cooling fans

Eurosign features a preloaded CampaignManager Signage Client. Just plug the screen into your network, point it at your **CampaignManager** server (separate purchase) and start showing scheduled content. Eurosign can be networked on LAN, WAN, Internet or Intranet using wired, WIFI or 3G connection. Use *Eurosign Solo* to implement a single stand alone screen with full display and scheduling capabilities.
