

Networked Digital Signage

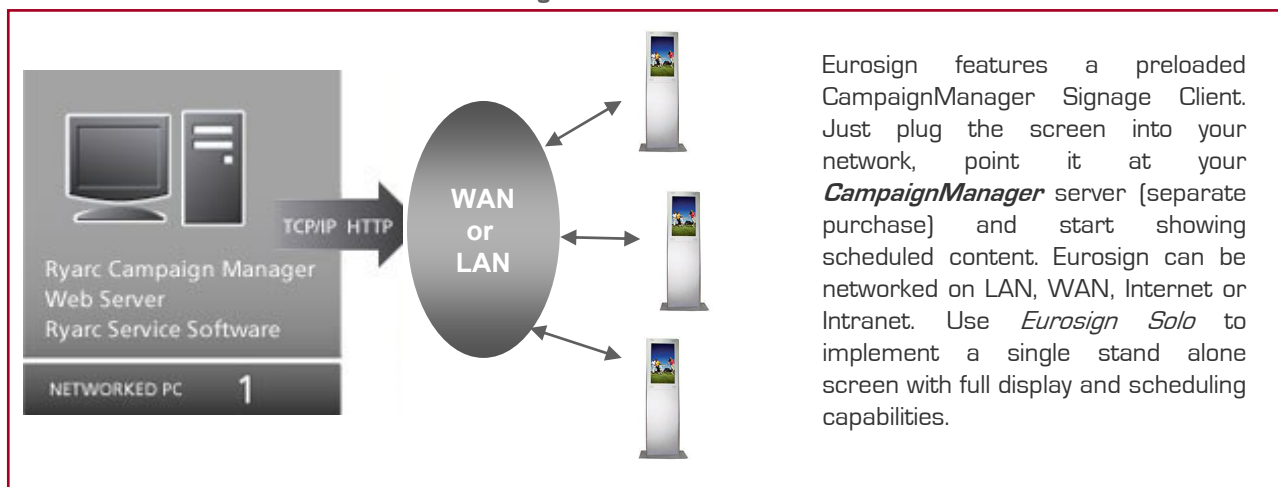

Eurosign is a high impact, large digital sign that integrates screen, media player and powerful signage software in a single styled enclosure. Just plug in power and network of choice and you are ready to go. Eurosign is an out of the box signage solution at surprising value for money.

Eurosign Totem, from Radiant Europe, is a stand alone digital signage kiosk which sets new standards in performance and value.

Radiant Europe's digital signage solution harnesses the power of **Ryarc's CampaignManager** signage software. Each display has an embedded XP platform, sophisticated media player technology and readily connects to a choice of network architectures.

- Robust enclosure – stainless steel with aluminium profiles
- Easy to apply branding
- High Brightness, Portrait Display with AR glass
- High Contrast, High Resolution
- Integrated High Reliability Core Duo Eurosign player
- Integrated audio and speakers
- Any content from pictures to HDTV
- Powerful Signage Software – Network Ready
- Multiple Screen Zones, Tickers, RSS
- Touch Screen Option
- Single source solution

Eurosign features a preloaded CampaignManager Signage Client. Just plug the screen into your network, point it at your **CampaignManager** server (separate purchase) and start showing scheduled content. Eurosign can be networked on LAN, WAN, Internet or Intranet. Use *Eurosign Solo* to implement a single stand alone screen with full display and scheduling capabilities.

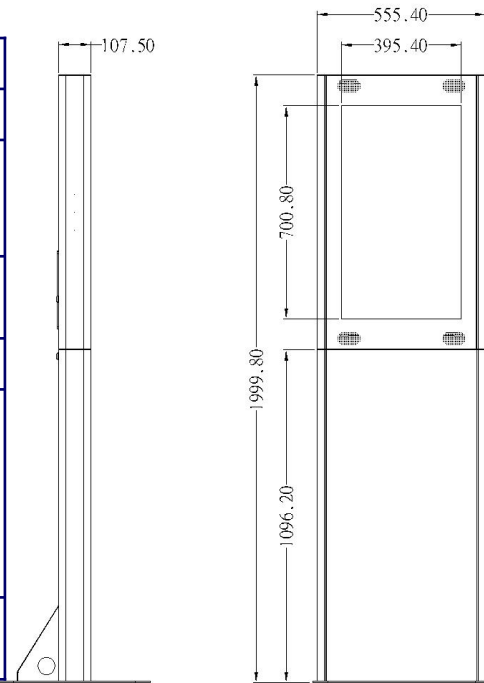

"Seeing is believing"

Contact us to arrange a demonstration of the brightest new digital signage solution.
